Textiles and Gender in Antiquity-Mary Harlow 2020-11-12 This volume looks at how the issues of textiles and gender intertwine across three millennia in antiquity and examines continuities and differences across time and space – with surprising resonances for the modern world. The interplay of gender, identity, textile production and use is notable on many levels, from the question of who was involved in the transformation of raw materials into fabric at one end, to the wearing of garments and the construction of identity at the other. Textile production has often been considered to follow a linear trajectory from a domestic (female) activity to a more 'commercial' or 'industrial' (male-centred) mode of production. In reality, many modes of production co-existed and the making of textiles is not so easily grafted onto the labour of one sex or the other. Similarly, textiles once transformed into garments are often of 'unisex' shape but worn to express the gender of the wearer. As shown by the detailed textual source material and the rich illustrations in this volume, dress and gender are intimately linked in the visual and written records of antiquity. The contributors show how it is common practice in both art and literature not only to use particular garments to characterize one sex or the other, but also to undermine characterizations by suggesting that they display features usually associated with the opposite gender.

Blasphemy-Sherman Alexie 2012-10-02 Sherman Alexie's stature as a writer of stories, poems, and novels has soared over the course of his twenty-book, twenty-year career. His wide-ranging, acclaimed stories from the last two decades have established him as a star in contemporary American literature. A bold and

irreverent observer of life among Native Americans in the Pacific Northwest, the daring, versatile, funny, and outrageous Alexie showcases all his talents in Blasphemy, where he unites twelve beloved classics with twelve new stories in one sweeping anthology for devoted fans and first-time readers. Included here are some of his most esteemed tales, including "What You Pawn I Will Redeem," "This is What it Means to Say Phoenix, Arizona," "The Toughest Indian in the World," and his most recent, "War Dances." Alexie's twelve new stories are fresh and quintessential, about amateur and donkey basketball leagues, extreme hoarding, lethal wind turbines, marriage, and all species of contemporary warriors in America today. An indispensable collection of new and classic stories, Blasphemy reminds us, on every thrilling page, why Sherman Alexie is one of our greatest contemporary writers and a true master of the short story.

Love-Pablo Neruda 1995-06-16 Poems from the

Film Il Postino. The poems collected in this book are at the heart of the film Il Postino, a cinematic fantasy spun from an apocryphal incident in the life of the Chilean poet and Nobel laureate, Pablo Neruda. Together they show why many consider Neruda to be the finest love poet of the century. Few writers of any age have described the pleasures and torments of erotic love with such un-sentimental directness and sensual precision. Here, too, we find Neruda at his most accessible, the language of his odes and lyrics refined to the point at which it achieves, in critic Jean Franco's words, "the naturalness of song". This short selection draws on work from throughout his writing life, from the famous early collection Twenty Love Songs & a Song of Despair (1924) to the key works of his maturity, Residence on Earth (1935), Elemental Odes (1954) and the autobiographical Memorial de Isla Negra (1964). It offers an enticing glimpse of one of modern poetry's greatest masters.

My Life in Advertising-Claude C. Hopkins 1917 This book is not written as a personal history, but as a business story. I have tried to avoid trivialities and to confine myself to matters of instructive interest. The chief object behind every episode is to offer helpful suggestions to those who will follow me. And to save them some of the midnight groping which I did. One night in Los Angeles I told this story to Ben Hampton, writer, publisher, and advertising man. He listened for hours without interruption, because he saw in this career so much of value to beginners. He never rested until he had my promise to set down the story for publication. He was right. Any man who by a lifetime of excessive application learns more about anything than others owes a statement to successors. The results of research should be recorded. Every pioneer should blaze his trail. That is all I have tried to do. When this autobiography was announced as a serial many letters of protest came to me. Some of them came from the heads

of big businesses which I had served. Behind them appeared the fear that I would claim excessive credit to the hurt of others' pride. I rewrote some of the chapters to eliminate every possible cause for such apprehensions.

Tell Me No Lies-John Pilger 2011-02-15 Tell Me No Lies is a celebration of the very best investigative journalism, and includes writing by some of the greatest practitioners of the craft: Seymour Hersh on the My Lai massacre; Paul Foot on the Lockerbie cover-up; Wilfred

Burchett, the first Westerner to enter Hiroshima following the atomic bombing; Israeli journalist Amira Hass, reporting from the Gaza Strip in the 1990s; Gunter Wallraff, the great German undercover reporter; Jessica Mitford on 'The American Way of Death'; Martha Gelhorn on the liberation of the death camp at Dachau. The book - a selection of articles, broadcasts and books extracts that revealed important and disturbing truths - ranges from across many of the critical events, scandals and struggles of the past fifty years. Along the way it bears witness to epic injustices committed against the peoples of Vietnam, Cambodia, East Timor and Palestine. John Pilger sets each piece of reporting in its context and introduces the collection with a passionate essay arguing that the kind of journalism he celebrates here is being subverted by the very forces that ought to be its enemy. Taken as a whole, the book tells an extraordinary 'secret history' of the modern era. It is also a call to arms to journalists everywhere - before it is too late.

Turning Tides-Ruby McNally 2015-08-18 Cars aren't the only things he can hot-wire. Fresh off an eighteen-month stint for grand theft auto, Joel Graziano heads for sleepy Montauk with nothing to his name but an ancient Buick and the keys to his grandmother's rundown beach cottage. He fully intends to serve out his parole fixing boats, keeping his nose clean, and minding his own damned business. Unfortunately, the locals immediately peg him as an interloper, and the keenest stare belongs to his sexy neighbor. Charlotte "Charlie" Sanger is curious about the man with the double sleeve tattoos, but she's got problems of her own. Her mother's death left Charlie in charge of her father and teenage sister. The result? Joy's pregnant and Dad isn't speaking to either of them. Soon Charlie is sneaking next door to lose herself in mind-blowing sex. It's supposed to be just a temporary neighbors-with-benefits arrangement, but Joel finds Charlie and her quirky gaggle of family and friends growing on him. And he dares to hope that Charlie could be a safe place to hang his heart. Warning: Contains an ex-con who's not afraid of prison, earning his "red wings," or judgmental yuppies, and a townie girl who's having trouble convincing him she's not slumming. An awkward visit from a parole officer, a highly mature battle of "who can care less," and a whole new appreciation for "assume the position."

Fundamental Theology-Heinrich Fries 1996 Praise for the German edition: "A master listener, a master arguer, a master of ecumenical sensitivity, [Fries] is concerned to hand on an

existential and reflected experience of the faith, and to make it comprehensible to other men and women as an answer to their questions about the meaning and direction of life . . . thus Fundamental Theology is not just a textbook, but also a book of faith." --Herder Korrespondenz Fundamental theology--with its traditional divisions of faith, revelation, and Church--studies the basic anthropological, philosophical, biblical, and historical foundations of theology. It is the place where theology's religious, intellectual, and cultural presuppositions are mapped out and where individuals can gain an understanding of what is at stake as Catholic theology moves toward its future. Unfortunately, however, theology is seldom taught today in this carefully structured way. Many students and readers of theology have little access to the philosophy and theology of the modern neoscholastic revival that made possible the achievements of the Second Vatican Council and its current reforms. Addressing this need, renowned theologian Heinrich Fries offers what is both a traditionally structured treatment of the basic issues of fundamental theology as they have been modified by Vatican II, and a study of the major ethical, religious, and cultural issues of the late twentieth century. In discussing the many influences at work in Catholic theology, Fries provides the background needed for understanding a bewildering variety of developments and movements, such as neothomism; transcendental thomism; Church reform under Vatican II and liturgical reform; liberation and political theology, and their sibling movements of feminist, womanist, and mujerista theology; inculturation and Christianity's shift from a Eurocentric to a World Church; ecumenism and interreligious dialogue; the tensions between traditionalists and progressives; and, finally, Catholicism's rapproachment with modernity and the challenges of postmodernism. Fries is uniquely qualified to write a fundamental theology. He personally contributed to the great achievements of the Second Vatican Council and since that time has played a leading role in the contemporary development of the theology of revelation and ecumenism. Fundamental

Theology was originally published in German in 1985. Now available for the first time in English, it will be an important reference for all theological students and an interesting historical study on Catholic theology for general readers. Born in Germany in 1911, Heinrich Fries was professor at Tubingen and Munich. He resides in Germany and continues to work as a writer and speaker.

This is not necessarily how they dressed in the past, but how the authors of this book think they dressed in the past, and why they think so. No reader of this book will ever look at a reconstructed costume in a museum or at a historical festival, or watch a film with a historic theme again without a heightened awareness of how, why, and from what sources, the costumes were reconstructed. The seventeen contributors come from a variety of disciplines: archaeologists, historians, curators with ethnological and anthropological backgrounds, designers, a weaver, a conservator and a scholar of fashion in cinema, are all specialists interested in ancient or historical dress who wish to share their knowledge and expertise with students, hobby enthusiasts and the general reader. The anthology is also recommended for use in teaching students at design schools.

Fashionable Encounters-Tove Engelhardt

Mathiassen 2014-05-30 At the heart of this anthology lies the world of fashion: a concept that pervades the realm of clothes and dress; appearances and fashionable manners; interior design; ideas and attitudes. Here sixteen papers focus on the Nordic world (Denmark, Norway, Sweden Finland, Iceland, the Faroe Isles and Greenland) within the time frame AD 1500Ð1850. This was a period of rapid and far-reaching social, political and economic change, from feudal Europe through political revolution, industrialisation, development of international trade, religious upheaval and technological innovation; changes impacting on every aspect of life and reflected in equally rapid and widespread changes in fashion at all levels of society. These papers present a broad image of the theme of fashion as a concept and as an empirical manifestation in the Nordic countries in early modernity, exploring a variety of ways in which that world encountered fashionable impressions in clothing and related aspects of material culture from Europe, the Russian Empire, and far beyond. The chapters range from object-based studies to theory-driven analysis. Elite and sophisticated fashions, the importation of luxuries and fashion garments, christening and bridal wear, silk knitted waistcoats, woollen sweaters and the influence of the whaling trade on womenÕs clothing are some of the diverse topics considered, as well as religious influences on perceptions of luxury and aspects of the garment trade and merchant inventories.

The boss of the city's Belfast meatworks, had arrived an hour early to set up for the day, when he noticed one of his workers packing up a crate on the countertop.
