Paris Time Capsule-Ella Carey 2020-10-06 An utterly unforgettable and heartbreaking novel about a young woman whose life was ripped apart by the Second World War and the power her story holds today. From bestselling author Ella Carey, Paris Time Capsule shows that pulling on the tiniest thread of a life can unravel everything you thought you knew, and change your world forever. The parcel arrived on an ordinary morning in the mailbox of her New York apartment, postmarked Paris. It was wrapped in brown paper and tied with a silk ribbon. Little did she know that the old brass key and letter it contained were about to turn her life upside down... 1940, Paris. Life is getting desperate for young Isabelle de Florian. Alone with her best friend in her apartment as the Germans tighten their hold on Paris, Isabelle knows that they must seek safety or die. For months she has been playing a dangerous game of secrets with the Nazis, trying to keep the people she loves safe. At last, she secures passage out of the city, packs her best jewels into a small suitcase and steps into the treacherous night... New York, 2015. Photographer Cat Jordan is shocked when she receives a letter informing her that she is the sole heir of the estate of Isabelle de Florian. She was a friend of Cat's enigmatic grandmother, who both lived in France until the Nazi occupation forced them to flee. The letter offers few details but is clear on one point: Cat must come to Paris in person. When she arrives, Cat is enchanted by Isabelle's beautiful apartment. But why did she leave it to a stranger? Determined to find the truth, Cat investigates her grandmother and Isabelle's escape from Paris, and discovers that Isabelle was hunted by the Nazis in 1940. But as Cat searches through the dusty letters in the apartment, will the secret she finds change everything she knows about Isabelle and herself? From bestselling author Ella Carey comes an utterly spellbinding novel about wartime secrets. Fans of Rhys Bowen, The Nightingale and My Name is Eva will keep this story close forever. This book was first published in 2015. Readers are utterly captivated by Paris Time Capsule! "Wonderful! Wonderful!!!! I absolutely fell in love with this book!!!! Such a timeless piece of work! Navajo Autumn-R. Allen Chappell 2013-03-04 Thomas Begay is found dead-drunk under the La Plata Bridge ...not unusual for Thomas Begay. What is unusual, is the beautiful BIA investigator Patsy Greyhorse, found lying beside him ...not drunk, or even a Navajo, but very dead nonetheless. Long time friend Charlie Yazzi, fresh from law school, risks his career ...and even his life to help his old schoolmate. The Answer seems to lie with the Yeenaaldiooshii ...should one choose to believe in such things. In the far reaches of the reservation there still are traditional Navajos living their lives with few concessions to modern mores. Guided by their strong sense of cultural heritage these outliers remain a strong anchor for the Navajo Nation. This story follows the lives of such people, caught up in a plot that could have far reaching implications for the entire tribe. "The depth of characters and culture transcends that generally seen in novels of the genre."

Beyond the Void Darkly-Douglas Tanner 2016-07-01 "A poignant saga of love and loss..." - Christian Indie Book Reviews "For all those readers who enjoy love stories, this is a must-read as it makes them believe in love all over again." - Reader's Favorite.com Can a man and woman separated by a century and a half be destined for each other? In a love story that spans from 2031 to 1883, a man wrestles with questions of faith, love, and destiny. Matthew Walton is a man on a mission. As a pharmaceutical scientist working on a top-secret time travel project, his one goal in life is to find a cure for his mother's cancer. But when he sees a beautiful young woman in 19th century Kansas, the daughter of a doctor who may have stumbled across the cure, Matthew becomes enraptured and begins to wonder if there is such a thing as love at first sight. But she can't see him, hear him, or feel him. To her, he is a ghost. As he gets to know her from reading her faded old diary and repeated trips through time, Matthew's desire to make contact with Elizabeth grows in urgency, because he has seen her die. And only he can save her. Weaving in issues of philosophy, heartbreak and loss, Christian faith, and ultimately, hope, Beyond the Void Darkly will remain with you long after you have finished the story. It will make you believe in love again.

Beyond the Void Darkly is a Christian Time Travel Love Story / Romance, 69,000 words.

Understanding Contracts-Jeffrey T. Ferriell 2012-09-05 This Understanding treatise is designed for first-year law students enrolled in Contracts. The text explains common law principles of contract law using cases and examples that students commonly encounter in this first-year course. It draws illustrations from the Restatement (Second) of Contracts, and from Article 2 of the Uniform Commercial Code as it has been adopted in all fifty states. This edition includes expanded material on the United Nations Convention on the International Sale of Goods, and the UNIDROIT Principles of International Commercial Contracts, appropriate to a basic course in Contracts, and on modern statutes regarding electronic contracting. Understanding Contracts was written with the understanding that Contracts will be one of the most challenging courses first-year law students will take. It explains how key concepts apply in several recurring basic fact patterns. It then builds on those fact patterns to explain how the law is more difficult to apply in business transactions with more complex facts. A key feature of Understanding Contracts, that is not found in other similar books, is its conscious incorporation of basic explanations of the common business practices to which the law of contracts applies. The feature helps students, many of whom have not had any background in the business world, understand contract law in the business settings in which it frequently applies. The book also provides detailed topic headings that students can use to develop their own comprehensive course outline. This eBook features links to Lexis Advance for further legal research options.

Bluestone Homecoming-MJ Fredrick 2014-02-14 War correspondent Leo Ericson returns to his hometown of Bluestone Lake, Minnesota, when his parents notify him his young son is having trouble fitting in at school. Leo doesn't know how to be a single parent since the death of his wife, and he certainly has no desire to return to Bluestone. But he needs a place for his son, a place where he'll be with family, while Leo does his job. He'll stay long enough to get Max settled, then go back to work. School counselor Trinity Madison watches Leo struggle with his son, trying to overcome the mental barricade she's erected against the man who sent his son away when he's perfectly capable of caring for the child. The situation brings about her own unsettled feelings about giving her child up for adoption when she was young. But as she observes Leo's difficulties, his sacrifices, she softens toward the man. While he's in town, he ends up working with some old friends and Trinity on a committee to revitalize Bluestone. The former resort town is struggling and looking for ways to bring tourists back. Leo finds himself charmed, then smitten with the feisty counselor, but will he still love her when he learns her secret?

Motorized Obsessions-Paul R. Josephson 2007-08-22 From dirt bikes and jet skis to weed wackers and

snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

The Way of the Happy Woman-Sara Avant Stover 2011 "Ancients lived in accordance with daily, seasonal, and yearly rhythms by necessity. But modern life overrides these cycles -- from weather and food to work and recreation. Because they are inherently cyclical and instinctually caregivers, women are especially affected. Millions of women trying to do it all, all the time, end up feeling depleted and defeated. In these pages Sara Avant Stover shows how simple, natural, and refreshingly fun practices can put women back in sync with their own cycles and those of nature. When we honor spring's seedlings, summer's color, fall's harvest, and winter's quietude, we harmonize our inner and outer worlds. Stover's suggestions nurture the body, invigorate the mind, and lift the spirit, yielding the same benefits as a getting-away-from-it-all retreat. Illustrated yoga poses, inviting recipes, and innovative journaling, meditation, and brainstorming techniques make reconnecting to the essential easy -- not just for a weekend or week but year-round and lifelong"--

The Remedy-Pascal Dennis 2010-06-24 Winner of the Shingo Prize for Excellence in Quality Improvement -From the Shingo judges: This work has an extremely widespread application as the tools, techniques, and methods described are at a level that achieves the goals of Lean and operational excellence without tying them down to a specific industry or work stream. The book provides practical knowledge for lean champions, managers, and executives driving toward operational excellence enterprise-wide. The story format, and the presentation of this material was excellent, and the avoidance of lean and operational excellence jargon gives the book a wide appeal...it is a pleasure to read. The Sequel to the Influential "Lean" Business Novel Andy & Me The Remedy is a compelling a business fable that shows how Lean quality improvement business practices—traditionally associated with manufacturing--can dramatically improve the service areas of your business—including design, engineering, sales, marketing and all processes in between. Written by Pascal Dennis, a leading Lean consultant, the story follows Tom Pappas and Rachel Armstrong, senior leaders at a desperate automotive company as they try to implement a Lean management system across an entire platform, the Chloe, a breakthrough "green" car. The future of the company is at stake. Can Tom and Rachel, supported by Andy Saito, a retired, reclusive Toyota executive, regain the trust and respect of the customer? Can a venerable but dying company implement Lean practices to every part of their business and learn a new, more effective way of managing? Shows you how to use the Lean quality improvement method to fix not just a manufacturing system, but an entire company, including management, design, marketing, and supply chain Written by Pascal Dennis, author of four books on Lean practices and winner of the coveted Shingo Prize for outstanding research contributing to operational excellence Originally developed by Toyota, the Lean approach to quality improvement has gained a worldwide following and helped turn around enumerable struggling businesses

Good Derivatives-Richard L Sandor 2012-04-06 Through the eyes of an inventor of new markets, Good Derivatives: A Story of Financial and Environmental Innovation tells the story of how financial innovation - a concept that is misunderstood and under attack - has been a positive force in the last four decades. If properly designed and regulated, these "good derivatives" can open vast possibilities to address a variety of global problems. Filled with provocative ideas, fascinating stories, and valuable lessons, it will provide both an insightful interpretation of the last forty years in capital and environmental markets and a vision of world finance for the next forty years. As a young economist at the Chicago Board of Trade, Richard Sandor helped create interest rate futures, a development that revolutionized worldwide finance. Later, he pioneered the use of emissions trading to reduce acid rain, one of the most successful environmental programs ever. He will provide unique insights into the process of creating these new financial products. Covering successes and failures, the story describes the tireless process of inventing, educating and creating support for these new inventions in places like Chicago, New York, London, Paris and how it is unfolding today in Mumbai, Shanghai and Beijing. The book will tell the story of the creation of the Chicago Climate Exchange and its affiliated exchanges (European Climate Exchange, Chicago Climate Futures Exchange and Tianjin Climate Exchange, located in China). The lessons learned in these markets can play a critical role in effectively addressing global climate change and other pressing environmental issues. The author argues that market-based trading systems are a far more effective means of reducing pollutants than

"command-and-control". Environmental markets may ultimately help to find solutions to issues such as rainforest destruction, water problems and biodiversity threats. Written in an engaging, narrative style, Good Derivatives will be of interest to both practitioners and general readers who want to better understand the creative process of financial innovation. In the middle of so much distrust of markets, it is also a recipe of how transparent, well-regulated markets can be a force for good in the environmental, health, and social areas.
