Environment, Social Justice, and the Media in the Age of the Anthropocene-Elizabeth G. Dobbins 2020-02-28 Environment, Social Justice, and the Media in the Age of Anthropocene addresses three imminent challenges to human society in the age of the Anthropocene. The first challenge involves the survival of the species; the second the breakdown of social justice; and the third the inability of the media to provide global audiences with an adequate orientation about these issues. The notion of the Anthropocene as a geological age shaped by human intervention implies a new understanding of the human context that influences the physical and biological sciences. Human existence continues to be affected by the physical and biological reality from which it evolved but, in turn, it affects that reality as well. This work addresses this paradox by bringing together the contributions of researchers from very different disciplines in conversation about the complex relationships between the physical/biological world and the human world to offer different perspectives and solutions in establishing social and environmental justice in the age of the Anthropocene.

Il segno della melanconia- 2015 Sul principio di polarità, fra esaltazione e abbattimento, si è basata la riflessione che fa da filo conduttore al concetto di melanconia, affrontato all'interno di questo libro. L'aspetto romantico della melanconia è solo una faccia di un argomento che affonda le radici nell'antichità e si snoda nel tempo e nella storia fino a toccare gli studi

psicologici sulla melanconia come malattia. Il senso sfuggente e misterioso di ciò che accade in questa esperienza umana è stato affrontato con un'analisi che mette in relazione gli studi e il vissuto dello storico dell'arte Aby Warburg con le teorie psicanalitiche, cliniche e filosofiche. Uno studio interdisciplinare condotto nelle regioni oscure della ragione dove perdersi o affrontare il paradosso della verità.

Human Sacrifice in Ancient Greece-Dennis D. Hughes 2013-01-11 Numerous ancient texts describe human sacrifices and other forms of ritual killing: in 480 BC Themistocles sacrifices three Persian captives to Dionysus; human scapegoats called pharmakoi are expelled yearly from Greek cities, and according to some authors they are killed; Locrin girls are hunted down and slain by the Trojans; on Mt Lykaion children are sacrificed and consumed by the worshippers; and many other texts report human sacrifices performed regularly in the cult of the gods or during emergencies such as war and plague. Archaeologists have frequently proposed human sacrifice as an explanation for their discoveries: from Minoan Crete children's bones with knife-cut marks, the skeleton of a youth lying on a platform with a bronze blade resting on his chest, skeletons, sometimes bound, in the dromoi of Mycenaean and Cypriot chamber tombs; and dual man-woman burials, where it is suggested that the woman was slain or took her own life at the man's funeral. If the archaeologists' interpretations and

the claims in the ancient sources are accepted, they present a bloody and violent picture of the religious life of the ancient Greeks, from the Bronze Age well into historical times. But the author expresses caution. In many cases alternative, if less sensational, explanations of the archaeological are possible; and it can often be shown that human sacrifices in the literary texts are mythical or that late authors confused mythical details with actual practices. Whether the evidence is accepted or not, this study offers a fascinating glimpse into the religious thought of the ancient Greeks and into changing modern conceptions of their religious behaviour.

La Parola del passato- 1968 "Rivista di studi antichi" (varies).

Eating of the Gods-Jan Kott 1987-06 In *The Eating of the Gods* the distinguished Polish critic Jan Kott reexamines Greek tragedy from the modern perspective. As in his earlier acclaimed *Shakespeare Our Contemporary*, Kott provides startling insights and intuitive leaps which link our world to that of the ancient Greeks. The title refers to the *Bacchae* of Euripides, that tragedy of lust, revenge, murder, and "the joy of eating raw flesh" which Kott finds paradigmatic in its violence and bloodshed.
