With a new set of exercises. --- Every club player knows the problem: the opening has ended, and now what? First find the right plan, then the good moves will follow! With this book, International Master Herman Grooten presents to amateur players a complete and structured course on: how to recognize key characteristics in all types of positions how to make use of those characteristics to choose the right plan His teachings are based on the famous "Elements" of Wilhelm

Steinitz, but Grooten has significantly expanded and updated the work of the first World Champion. He supplies many modern examples, tested in his own practice as a coach of talented youngsters. In Chess Strategy for Club Players you will learn the basic elements of positional understanding: -- pawn structure -- piece placement -- lead in development -- open files -- weaknesses -- space advantage -- king safety -- exploiting small advantages. The author also explains what to do when, in a given position, the basic principles seem to point in different directions.
